

EZCast Pro II

EZCast Pro Dongle II improves on the existing Pro Dongle technology with new hardware and software support. The new 802.11ac 5GHz 2T2R Wi-Fi transceiver creates faster and more stable Wi-Fi performance. New ProCast app allows 1-to-many screen mirroring in realtime for more classroom and conference room applications.

The most powerful EZCast Pro II
WiFi display dongle now comes with 5GHz and supports 4K!!!

Brand new Hardware design for improved performance

GHz-level SoC with 1GB DDR3 memory to deliver a more powerful performance.

4K support for enhanced media streaming experience

Screen mirror wirelessly to beautiful UHD TV and projectors to enhance your presentation experience.

Enhanced Wi-Fi for faster and more stable transmission

Supports 802.11 ac 5GHz Wi-Fi with 2T2R MIMO high sensitivity antenna to improve bandwidth to run resource intensive applications such as 4K video streaming.

Run more efficient meetings with EZCast Pro app

Take realtime notes with EZNote, stream documents and photos in wireless presentations. Control meeting agendas with Host Control.

Cross platform wireless screen mirroring protocols

Supports both airplay Screen Mirroring and miracast without switching its configuration, ready for wireless screen mirroring from any smart device.

Product Specifications

Product		EZCast Pro II (D10)
Computing Power	CPU	1GHz Dual Core
Resolution	Max Output Resolution	3840x2160@30hz
I/O	Ports	HDMI out (HDMI1.4) USB type-C connector for DC 5V
Networking	WiFi	802.11ac 2T2R, max. bandwidth 866Mbps (@5Ghz)
	Ethernet	N/A
Power	Power	DC 5V, 1.5A
Temp.	Working Temp.	0~40°C
	Storage Temp.	-20~70°C
Size	Dimension	87.5 x 32 x 12 (mm)
